

Arthur Pedroso de Almeida

Frontend Developer / React / Next.js / TypeScript

Sao Paulo, Brazil

github.com/Ruthraas / linkedin.com/in/Arthurdevin

About

Frontend-focused developer building modern interfaces, web applications and digital experiences with React, Next.js and TypeScript. Practical experience with complete projects including JWT authentication, REST APIs, dashboards, Discord bots and systems focused on usability, organization and performance.

Education

Rocketseat ONE

Continuous learning focused on modern web development with React, Next.js, Node.js and TypeScript.

Main Stack

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express, REST APIs, JWT Authentication, SQLite, Knex.js, Prisma

Tools: Git, GitHub, Linux, Vite, Figma, Discord.js, Postman

Practical Experience and Projects

HelpDesk System

Web application for support ticket management with authentication, ticket organization and responsive interface.

APIs and Backend Development

REST API development using Node.js with JWT authentication, modular structure and frontend/backend integration.

Dashboards and Modern Interfaces

Modern dashboard and interface development using React, TypeScript and Tailwind CSS with focus on visual experience and responsiveness.

Discord Bots

Modular bots using TypeScript and Discord.js with slash commands and organized architecture.

Differentials

- Strong focus on UI/UX and visual experience
- Organization of scalable projects
- Practical experience with Linux and modern environments
- Complete application development from frontend to backend
